**RE: Determination of completeness and acceptability on the application to Export Storage Water from the Pathfinder Modification Project**

Dear Mr. Lawson,

The State Engineer's Office (SEO) has received the Bureau of Reclamation's application to Export Storage Water from the Pathfinder Modification Project, and has deemed that application to be complete and acceptable.

The SEO has undertaken a review of the application and has prepared a preliminary analysis of it. Based on this analysis, my opinion is that the application sufficiently addresses relevant statutory requirements. I therefore recommend that the application proceed through the statutory process for approval.

Sincerely,

A handwritten signature in black ink, appearing to read "Patrick T. Tyrrell". The signature is fluid and cursive, with the first name being the most prominent.

Patrick T. Tyrrell  
State Engineer

CC: Mike K. Purcell, Director  
Wyoming Water Development Office
