Patrick T. Tyrrell  
State Engineer

Primary application in name of Owl Creek Irrigation District (proposed).

Name of Applicant changed to "Washakie Needles Irrigation District," authority letter L. F. Thornton, dated February 14, 1936.

Assigned to Hot Springs, Public Irrigation District, See Miscellaneous Records, Book 8, Page 356.

Assigned to United States of America. See Miscellaneous Records, Book 9, page 84.

NOTE: Part of the Maps are "E" size, part are not. All Maps are file together in "F" file under Permit No. 6902 Res.

NOTICE

A reservoir permit merely gives the right to construct a reservoir. If a reservoir obtains all or a part of its water supply from some other source than the stream on which the reservoir is located, permits for supply ditches must be obtained.

 Fee 2.00 paid, Maps filed "E"

NOTICE

A Manual of Regulations and Instructions for Filing Applications will be furnished by the State Engineer's Office upon request. The applicant will avoid much trouble and delay by carefully complying with the instructions contained in the Manual.

This application must be accompanied by maps in duplicate, prepared in accordance with the instructions contained in the Manual. A filing fee of two dollars must accompany each application.

Applications returned for corrections must be resubmitted to the State Engineer, with the corrections properly made, within the time specified (usually ninety days); otherwise the filing is subject to cancellation.

This application when approved is your authority to construct the reservoir. Work must be commenced within one year from the date of approval of this application and written notice thereof filed in the State Engineer's Office.

Notice of the completion of the construction of the reservoir should be filed in the State Engineer's Office before the expiration of the time allowed in the permit.

Requests for extension of time within which to begin construction or to complete construction must be in writing, stating why the additional time is required, and must be received in the State Engineer's Office before the expiration of the time allowed in the permit.

When the terms of the permit have been complied with, notify your Division Superintendent that you are ready to submit proof of construction.
